# LEASEWEB CLOUD 330 EXPERIENCE

The Cloud 330 Experience is a hugely enjoyable day but, when you're travelling at over 300 km/h a thousand meters above the ground, there are also some serious things to consider:

- The whole Cloud Experience takes about an hour – of which 30 minutes are actually in the air. The rest of the time is spent with a pre-flight briefing, putting on your parachute, then taxiing the aircraft before and after takeoff.
- Please note that if the weather isn't good enough for flying, the flight will be postponed to a new date.
- The LeaseWeb Extra 330 is a small aircraft in which two people sit behind each other in separate seats. This means that people who are over two meters tall and/or weigh over 100kg are not allowed to fly.
- In addition, it is essential that you are in good health and in proper physical condition in order to participate in the Cloud 330 Experience. On the day of the flight you should not be under the influence of alcohol or any illicit or prescription drugs which would in any way impair your ability to safely participate or to re-act in a controlled way in case of emergency.
- You will be asked to sign the following disclaimer on the day. Please read it carefully before you arrive at the airport:

By participating in the Cloud 330 Experience, you agree to observe all reasonable instructions given by or on behalf of LeaseWeb Global B.V. and its affiliates and /or Zeusch Aviation B.V. in order to ensure safe, efficient and comfortable carriage for all passengers. If your mental or physical condition is such as to pose a hazard or risk to you, then LeaseWeb Global B.V. and its affiliates and Zeusch Aviation B.V. shall in no event be liable for damage attributable to such age/condition. If you are aware of such condition, please notify LeaseWeb Global B.V. and its affiliates and Zeusch Aviation B.V. hereof before boarding any airplane or participating in the Cloud 330 Experience.
